2018-2019
When something’s right, you feel it immediately. A magnetic force that draws you in, and everything just clicks. That’s the moment you say to yourself: “This is where I belong.”

WELCOME TO MASON, LET’S START CONNECTING.
1
Highest average starting salary
to Virginia public university graduates according to the PayScale Council of Higher Education for Virginia.

22
NCAA Division I athletic teams represented

16:1
student to faculty ratio

450
clubs + organizations

130
countries

50
states
Mason is a young university, and that works in our favor. We're anything but old school. We don't see constraints, only possibilities. And given the types of students we attract—from 150 countries and all 50 states—so do they. Because when different perspectives and new ideas connect, true learning and understanding take place, and a global dialogue begins. It only gets more interesting from here.
Mason’s innovative spirit and reputation for excellence have attracted some of the brightest minds in the country. They have published widely, contributed to major research findings, consulted with government and business officials, and are frequently in the media. They are Nobel Laureates, Pulitzer Prize winners, Fulbright Scholars, and Robinson Professors, to name just a few.
IN UNDERGRADUATE RESEARCH GRANTS

RESEARCH AT THE HIGHEST LEVEL

Mason is one of only 115 schools in the country to hold the coveted R1 status given by Carnegie. As a tier-one research university, Mason is committed to answering questions that matter, from cybersecurity to cancer treatments.

And undergraduates are taking part, from building a prosthetic arm with a 3-D printer to working with artifacts at the Smithsonian Institution in Washington, D.C. There is even an office on campus devoted to helping you find a faculty mentor, support for your research, and the opportunity to present your findings.

$300k IN UNDERGRADUATE RESEARCH GRANTS
MASON’S HONORS COLLEGE

Mason’s most academically talented and motivated students receive distinct benefits, including priority course registration, a dedicated Living Learning Community, exclusive seminars, and research opportunities in their very first semester at Mason.

Application to Mason’s Honors College is competitive and requires students to apply by the November 1 priority deadline and to submit a supplemental Honors College essay for consideration.
Our 40+ residence halls offer a variety of living arrangements, including suites and apartments. And our popular Living Learning Communities help you connect with others who share your interests or major. Residence halls offer:

- New or recently renovated spaces
- Shared kitchens
- Free laundry facilities
- Bright, open lounge areas
- State-of-the-art fitness centers

Check out our Living Learning Communities (LLCs) and connect with others who share your interests or major.

WHAT ARE YOU HUNGRY FOR?
Mason Dining offers something for every taste, including vegan, gluten-free, and Halal options. Have a craving for Chipotle? It's right here on campus, along with Steak 'n Shake, Panera, Chick-fil-A, Starbucks, and more.
Technology and communications have fascinated communication major Sam Wolfe since he first learned how to use his father’s desktop computer. Sam first came to Mason while still in high school to attend the Washington Journalism and Media Conference, which is hosted by the university each summer. While he decided to choose Mason for the university’s strong sense of community, he also benefited from the many internship and networking opportunities that helped him secure his position as a social media specialist for Best Buy’s corporate headquarters.
A student in both the Honors College and the School of Art, Lauren Lapid is working on a BFA with a concentration in graphic design and a minor in business. She has compiled an impressive portfolio that helped land her an internship with Paramount Studios as an in-theater marketing intern. There, she assisted with upcoming movie promotions, giveaways, and social media. Lauren also worked at Adobe Systems in Silicon Valley as a digital media intern.
To compete in today’s global economy, you need to have an understanding of the complexities of our interconnected world. We help prepare students by infusing global awareness across our campus and curriculum. Our study-abroad programs also give students the opportunity to experience different cultures or master a language while studying at prestigious host institutions.
When you're not hitting the books, there's plenty of fun stuff going on all over campus. Join one or two (or three!) of the 450+ student organizations. Don't see one that you like? Start your own. You can go Greek, join an a cappella group, volunteer for Best Buddies—or do all three. Enjoy concerts and theater performances, rock climb or mountain bike at a nearby park, or explore downtown Washington, D.C.

Show off your Patriot Pride by cheering on one of our 22 NCAA Division I teams, or play on a club or intramural team yourself. And let's not forget Mason Day, Holi Moli, and Mason Madness! Sleep will just have to wait!

IT'S ALL HERE. ON AND OFF CAMPUS.
Washington, D.C., is just a short distance away, along with limitless internship possibilities. Sure, there’s Capitol Hill, but there are also tech startups, Fortune 500s, nonprofits, the FBI and CIA, performing arts, and numerous museums where you can test out a possible career choice, gain relevant experience, and make valuable contacts.
WHAT COMES AFTER MASON?

YOUR CAREER!

When you’re ready to go out and make your mark on the world, University Career Services can help by providing industry-based career advice, resume and interview workshops, and access to a strong professional network.

Our alumni have gone on to graduate studies at Stanford, MIT, and the Medical College of Virginia, to name a few. Many take a break to join the Peace Corps or Teach for America before tackling that advanced degree.
